

Site Supervisor

M2P2 is an aggressive fast paced swine company headquartered in Ames, Iowa. We are seeking an individual to work at one of our farms in Southeast Colorado as a Site Supervisor, and would provide energy and excitement to our team as we Redefine World Class.

Do you have an Associate Degree in Animal Science or a related field or demonstrated experience in a management role? If you are a self starter that thrives in a fast paced environment and have top notch organizational skills and leadership skills, then we have the opportunity of a lifetime waiting for you. We are looking for someone that has a passion for swine production. The ideal candidate will oversee all aspects of the management of all production and physical attributes of the unit by successfully carrying out and understanding both core processes and key process measures while demonstrating leadership skills in delegation and completion of tasks. Must be able to speak, read, and write English and Spanish. Must have valid driver's license and proof of current auto insurance.

Some of the Essential Functions this position is responsible for:

1. Take an active role in safety program including following safety procedures, enforcement of policy and continued training.
2. Perform all required duties in a timely manner as outlined in the S.O.P (Standard Operating Procedure).
3. Ensure direct reports follow and enforce policies and procedures of the location.
4. In conjunction with direct reports actively monitor activities of individuals for timely hiring, evaluation, counseling, and disciplinary action according to company policy.
5. Responsible for ensuring all paperwork and production information is complete, correct, and processed within an appropriate time frame. Provide General Manager with any reports and/or production information necessary.
6. Understand and demonstrate the ability to maintain production targets and objectives through inventory control, throughput and operating expense within company guidelines.
7. Ensure that all supplies, health aids, vaccines and feed necessary for farm complex operations are ordered and required inventories are maintained.
8. Communicate and train all direct reports on company S.O.P. (Standard Operating Procedures). Provide timely follow up, inspection and reinforcement.
9. Responsible for operating the unit within farm bio-security policy.
10. Incorporate the core principles of PQA+ and TQA.
11. Entrust in the company's mission, vision, values, and goals.
